RE: Application for Planned Unit Development

To All:

This memo shall serve to supplement the plans submitted on June 10, 2020. The previously submitted application was submitted with the correct site plan that included an increased five parking spaces at the request of the Village Zoning Administrator. The expansion of the parking spaces resulted in a modified landscaping plan, specifically, one (1) shade tree and two (2) evergreen shrubs were removed and seven (7) ornamental grasses added. In addition, the turf restoration and proposed irrigation adjacent to the new parking were slightly adjusted. Therefore, your packets do include an updated landscaping plan to properly evidence these slight modifications.

Your attention to the project detail is greatly appreciated.

Very Truly Yours,

D. DANIELLE GRCIC
PARTNER
